WASHINGTON NEWS.

Latest Report From the Agricultural Department.

CONDITION OF WINTER GRAIN.

An Advance of One Point During the Month of April—No State Average Less than Ninety-Three—Effect of the Frost. Small Fruit Damaged—Other Dispatches from the National Capital.

WASHINGTON, May 11.—The condition of winter grain on the 1st of May is reported by the statistician of the department of agriculture as follows: Wheat, 97.9; rye, 97.2; barley, 96.2. This is an advance in wheat of one point during April, and of quite as much in rye. A gain in wheat is reported in New York, in some of the southern states, in Michigan, and slight improvement in Illinois, Missouri and some other states. The uniformity of condition is somewhat remarkable, no state average being lower than 93.

The condition of mowing lands is also high, averaging 97, ranging from 90 to 100. The average for spring pasture is 98, ranging from 92 to 100, except a drop in Utah to 89, and in New Mexico to 85. The eastern slope of the Rocky mountains comes within four or five points of full condition, and the Pacific coast is near the maximum.

The progress of spring plowing has been greatly retarded by excess of moisture in the central and southern belts. The portion planted is reported at 68.8 per cent. The average of several previous years has been 77 per cent. The eastern states reports favorable conditions for spring work and fair progress to date. In all the southern states it has been delayed by heavy rains, and later by drought, which has rendered plowing difficult and imperfect.

In the Ohio valley excess of moisture delayed plowing through March and interfered with its progress in some places during the first two weeks of April. The work has progressed rapidly since, and germination has generally been prompt. In the northwest the season has been favorable. Spring work is well advanced and spring grain coming up and growing finely.

An investigation has been made of the effects of frost on the 5th and 6th of May. Telegrams have been received from state agents showing that very general damage has resulted to strawberries and early vegetables; some injury to grapes and cherries, and peaches to some extent.

In the east and north it was too early to injure peaches; in the Ohio valley it is thought it may cause dropping of growing fruit. The fruit belt of western Michigan is said to have received little injury though the damage has been serious, especially to small fruits and vegetables in other parts of Michigan. Nearly all unite in saying that no injury to the growing crops has occurred. A brisk wind and dry air favored the New Jersey orchards, and the loss of peaches and apples will not be so serious as was feared. The Maryland agent reports loss of strawberries and early vegetables, with no injury to grain and none to apples, peaches or plums, as mentioned. The damage to the peach belt is apparently not so serious as was at first reported.

Murdered by Highbinders.

WASHINGTON, May 11.—James Marr, United States chief inspector at El Paso, Tex., writes to the treasury department under date of El Paso, Tex., May 1, that a Chinaman, name not given, in the employ of the United States, had recently been murdered at Paso del Norte, Mex., by Chinese Highbinders. The Chinaman was employed by Inspector Marr to assist him in detecting Chinamen crossing the border from Mexico and entering the United States in violation of the Chinese exclusion act. He was a laundryman and resided at Paso del Norte in Mexico.

Demand for Dimes.

WASHINGTON, May 11.—The demand for dimes upon the United States treasury is so great that it cannot be met. Within the past ten days \$174,000 in dimes has been shipped and orders for \$60,000 are now awaiting to be filled. There has been ordered smelted and coined into dimes at the several subtreasuries \$231,000 of debased silver coin.

Small Town Destroyed by Fire.

LUDINGTON, Mich., May 11.—Walker, a small town in Ocean county, the terminus of Butlers' and Peters' logging camp, was almost totally destroyed by forest fires yesterday afternoon. The hotel, stores, livery barn, saloons, blacksmithshop and all but a few dwellings went up in smoke. Five hundred thousand cords of wood logs were also burned. Fires are raging in the woods over the country and doing incalculable damage. Kit Zinger's mill at Friesland was also destroyed by forest fires.

Murdered His Wife.

PITTSBURG, May 11.—James Stewart, of Chartiersborough, murdered his wife Mary, aged 30, Saturday night. Stewart came home drunk at supper time. He terrified his wife with curses, and when she tried to escape threw a burning lamp at her. The lamp struck her on the breast, exploding and burning the woman so severely that she died Sunday after a night of awful agony. Stewart was brought to Pittsburgh and locked up.

The Mine Still Burning.

LANSDOWN, Pa., May 11.—All efforts to smother the fire in the Lehigh Coal company's No. 4 colliery, at Summit Hill, have proved unavailing. It is believed that the missing miner Hugh Sharp has perished. Preparations have been made to flood the mine, but this means of extinguishing the fire will only be resorted to after all others fail.

LOOKS LIKE MAFIA WORK.

Italian About to Sail for Italy Seized and Stilletoed.

NEW YORK, May 11.—A stabbing affray, which bears a strong resemblance to the work of the Mafia, occurred Friday night in the Italian quarter in West Hoboken. Almost the only things definitely known about the case are the name of the man who was stabbed and the probabilities that his wounds are dangerous. There is one wound in his breast and another in his neck, both made with a stiletto.

The victim is Louis Peretti, a silk weaver, who boarded in Spring street. He had given up his employment and made arrangements to sail for Italy Saturday. On Friday evening he was the center of a group of excited Italians, who were talking and gesticulating at West and Hague streets. Suddenly two of the Italians seized him, one on each side, and a third plunged a stiletto into his breast and neck. Some of the other Italians interfered and saved him from being murdered outright.

Justice Schaefer, of Union Hill, who was a witness of the scene, sent for a policeman, but before the messenger could find one Peretti's assailants were released by their companions and had disappeared, running in the direction of Jersey City. Policeman Vernorel followed them for a short distance, but soon gave up the chase.

Peretti refused to disclose the name of his assailants or make any complaint against them. The West-Hoboken police hold that this relieves them from any responsibility in the matter, and they will not make any effort to capture the murderous Italians.

A resident of the Italian quarter advanced the theory yesterday that Peretti was possessed of some secret that his assailants feared he might divulge when he reached Italy, and they decided to kill him.

ATTACKED BY A BULLDOG

A Little Boy Terribly Mangled by the Vicious Brute.

LONDON, O., May 11.—The little 5-year-old son of Andrew McClimans, of Range township, this county, had a terrible experience with a ferocious bulldog. The little fellow, together with his cousin, a little girl of the same age, attempted to enter the gate of a neighbor, Mike Ryan, when a vicious bulldog seized the boy and began to shake him like a rat. Before assistance was at hand the dog literally chewed the flesh of the boy from his knees to his head.

The women of the house ran to his rescue and succeeded in getting the boy on the fence, when the blood-thirsty brute again sprang upon him and pulled him to the ground, lacerating his victim in a terrible manner. At length, after great difficulty, the dog was forced to release his hold and the boy was got into the house with the flesh nearly all torn from his body. Dr. Welch, of Mt. Sterling, was summoned and says there is little hope of the boy's recovery. The little companion of the boy had her arm also badly bitten by the infuriated brute.

ALLEGED MEDIUM EXPOSED.

People Living in the Suburbs of Indianapolis Badly Taken In.

INDIANAPOLIS, May 11.—Thomas Winans, an alleged medium, has been gulling the people of the suburbs for several weeks in alleged seances, and some of those who have recently lost relatives by death, became so impressed by the return of their relatives, that their friends feared for their sanity.

They determined to expose Winans, and on Saturday night they put their plans into execution. A number of them attended the seance, and while the dead husband of one of the believers was talking to her a match was struck. The dead husband proved to be Winans himself, who had untied himself after the room was darkened and had appeared to a dozen of the deceased relative with whom they were anxious to communicate. The police entered the room at the moment of the exposure and compelled Winans to return the money which he had received from his dupes.

TERRIBLE MARINE DISASTER.

Steamer With Colonists from Washington Goes Down in Juan De Fuca Straits.

TACOMA, Wash., May 11.—The steamer Lucy Lowe has foundered in the Straits of Juan de Fuca with fifty-five colonists. The party, numbering fifty-six, left Tacoma April 21 to settle on land near the mouth of the Quastahes river, but were beaten back by high seas and became short of food.

John N. Grant, of Tacoma, the only survivor, returned here yesterday. He believes the entire party have been lost. A search party is being fitted out.

FORT WAYNE, Ind., May 11.—The fight between Tommy White and George Siddons, both of Chicago, to decide the feather-weight championship of the northwest and for stakes of \$1,000 attracted a crowd of over 1,000 persons to the Princess rink in this city Saturday night. Little fighting was done in the first four rounds. In the fifth round White struck Siddons a heavy blow on the ear drawing blood. First blood was claimed for White and allowed. In the sixth round the men clinched. At the breakaway White got a terrible right hander on the mouth which started the blood flowing. Little damage was done in the remaining rounds, the fighting being of a scientific nature. In the forty-seventh round White hit Siddons a heavy blow on the jugular knocking him down. This was the only knockdown in the fight. In the forty-ninth round the fight was declared a draw.

Freight Train Wrecked.

MINNEAPOLIS, May 11.—A freight train on the Chicago, Milwaukee and St. Paul road near Dubuque, Iowa, jumped the track yesterday morning. The engine and six cars were derailed. Engineer James Richmond was killed and the fireman and brakeman were seriously injured.

THE UTAH VALLEY.

President Harrison and Party Homeward Bound.

STRONGHOLD OF MORMONISM.

A Number of Cities of Utah Visited, Which Vie With Each Other in Doing Honor to the President—Speeches Made by the President—Sunday Spent in Colorado.

CATTLE GATE, Utah, May 11.—The journey of the presidential party from Salt Lake through the fertile Utah valley, the stronghold of the Mormon church, was marked by a continuous ovation. Stops were made at Lehi, American Fork, Provo and Springville, where large crowds cheered the president heartily. Provo turned out more than a 1,000 people, including the school children of the town. In the course of his remarks there, the president said:

"I am glad to see these dear children here, coming from the free schools of your city. The public school is the most wholesome and hopeful institution. It has an assimilating power possessed by no other institution in our country. When children of the rich and the poor mingle together on the play-ground and in the school room, there is produced a unity of feeling and a popular love for public institutions, which can be brought about in no other way [cheers]. God bless and protect your public schools until every child in your territory shall be gathered into them." [Cheers.]

At Springville, Governor Thomas, Delegate Cain and other prominent citizens of the territory, who met the president in Idaho, left the party. The train arrived here at 4:50 p. m., and the president addressed a large crowd at the station.

THE PRESIDENT'S SUNDAY.

An Expected Day of Rest Not Realized. Welcome to Glenwood Springs.

GLENWOOD SPRINGS, Col., May 11.—The expectation of the president that he would have a quiet Sabbath at Glenwood Springs was not realized. The presidential train arrived here during the night and the party remained on board until 7 o'clock Sunday morning, when large delegations from Denver, Colorado Springs and Pueblo came to escort them to the Hotel Glenwood. In the delegations were Governor Routt, ex-Senators Hill and Tabor, Congressman Townsend, Chief Justice Helm, Hon. S. N. Allen, of Denver; Mayor Sprague, of Colorado Springs; a delegation from Pueblo and a large number of other persons from those three places. Governor Routt stepped forward, and in an informal manner welcomed the president to Colorado and Mayor Hodges, of this town, welcomed him to Glenwood Springs and presented him with an engraved plate composed of silver and gold, bearing the arms of Colorado and appropriately inscribed. Aspen people also presented the president with a beautiful silver souvenir bearing the inscription "Free Coinage, Honest Money."

At Glenwood hotel the party had breakfast, after which the president and ex-Senator Hill took a walk. At 11 o'clock the president, Mr. Wanamaker, Mrs. McKee, Mrs. Boyd and Mr. Hill attended the Presbyterian church, and on conclusion of the services the president returned to his room in the hope of getting a little rest. He anticipated passing the day in strolling about town and resting, but excursionists from Aspen, Pueblo, Leadville and other places, one contingent headed by a brass band, began pouring into town before noon and the streets were so crowded with people that the president decided to forego the stroll, and went to a mass meeting of Sunday school children at the opera house, where he and Mr. Wanamaker delivered address.

In this speech President Harrison said he came to Glenwood Springs for rest, but he felt he could not deny himself to the large body of friends before him. In conclusion he said: "Men should have one free day in which to think of their families, of themselves, of things that are not material but are spiritual. [Applause] I desire to express from a sincere, earnest heart my thanks to you all for your kindness, giving you in return simply the pledge that I will, at all times, keep in mind what seems to me to be the true interests of the people. [Applause] I have no thought of sections; I have no thought upon any of these great public questions that does not embrace theology and interests of all our people, and all our states. [Applause] I believe we shall find a common interest and safe ground upon all these great questions by moderating our own views and making reasonable and just concessions we shall find them all settled wisely and in the true interests of the people. [Applause.]

In the afternoon Mrs. Harrison was presented by a delegation from Leadville with a miner's candle stick of silver and with other souvenirs and each lady in the party was given a box of native mineral specimens. After consultation with Mr. Boyd, the Pennsylvania railroad official in charge of the party, and Mr. S. K. Hooper, of the Denver and Rio Grande, the president decided to have the party taken to some quiet spot on the line of the Denver and Rio Grande, and accordingly at 6 o'clock in the evening the train steamed out of Glenwood Springs.

Sidetracked for the Night.

GYPSUM, Col., May 11.—The presidential train was sidetracked last night at this place twenty-four miles from Glenwood Springs. It left for Leadville at 2 o'clock this morning.

Sir John Lubbock kept a queen bee for fifteen years, a test proving her eggs to be just as fertile at that age as they were twelve years before.

FOREST FIRES.

Great Destruction Being Done in the Pennsylvania Oil Fields.

BRADFORD, Pa., May 4.—A special from Kane, Pa., to The Era, says since 3 o'clock Sunday afternoon a destructive forest fire has been eating its way through the Kane oil fields destroying the best part of the northern half of the producing territory. C. W. Schofield and Koester's property on lot 385 is entirely consumed. Steithemer & Company, on the Brown lease, lose sixteen rigs. Two-thirds of J. P. Cappeau lease, owned by Preston and others, is in ashes.

At this hour the fire continues with unabated fury, advancing northeasterly on lots 381, 385, 420 and 421. Another furious fire is advancing on Porter pump station from the south and northwest. Hundreds of men are in different parts of the field fighting the fire. A high wind makes their efforts futile. The village of West Kane is threatened with destruction.

Advices just received from Keating Summit, Pa., state that the most disastrous forest fires known for fifty years are raging within a short distance of Austin, in the immense timber tract of F. C. & M. W. Goodyear, of this city. The fire was discovered Sunday morning. Thirty million feet of timber and thirty cords of bark were burned within ten miles of the railroad track. Telegraph and telephone service is badly crippled, and it will be impossible to get details until to-morrow.

FOREST FIRES IN MICHIGAN.

Several Villages Entirely Destroyed and Others in Great Danger.

DETROIT, May 11.—Each additional report from the region of the forest fires show that the damage instead of being exaggerated has been underestimated. Morely, Mecosta county, telegraphed yesterday that Altona, a small village ten miles from there was in ashes. Big Rapids, Mecosta county, reports that had fires are raging in several places in the county. A report from Bear Lake, a small settlement in the northern part of the county, states that several houses were set on fire by sparks blowing in from the forest, fully half a mile away, and the people were driven into the lake for shelter.

Harrison, the capital of Clare county, has had twenty-four hours of imminent danger, and summoned help from Clare and other villages. Clinton, a small station on the Toledo, Ann Arbor and North Michigan railroad, was wiped out yesterday afternoon. Wagner & Pierce had two million feet of logs, and Hyde Brothers one million feet, burned. Farwell was burned yesterday, with all the houses in the settlement.

Railway Station Destroyed.

GRAND RAPIDS, Mich., May 11.—The Chicago and West Michigan station at Shields, near White Cloud, was destroyed by forest fires Saturday. Eighteen Chicago and West Michigan freight cars were burned at Lilley Junction. At Brightley, on the Chicago and West Michigan, 2,000,000 feet of logs owned by Dunshorn, Bolinder & Company, of Muskegon, were also destroyed.

CENTER OF POPULATION.

The Chicago Herald Dedicates a Monument to Mark the Spot.

GREENSBURG, Ind., May 11.—In honor of its birthday, The Chicago Herald yesterday dedicated a monument of Bedford stone to mark the center of population of the United States.

THE CENTERS IN DIFFERENT DECADES.

At the present time the center of population of the United States is ten miles from Greensburg, Ind., in latitude 39 degrees, 11 minutes, 56 seconds, and longitude 85 degrees, 32 minutes, 53 seconds, and is exactly on a straight line with the first marked out, east of Baltimore, one hundred years ago. Ten thousand people from all parts of Decatur county, Ind., witnessed the dedicatory exercises.

DOWN A MOUNTAIN'S SIDE.

Frightful Rush of a Cattle Train, Resulting in Killing 360 Animals.

TRINIDAD, Col., May 11.—A serious wreck occurred on the Santa Fe road, several miles west of here, last night. A freight train of twenty cars, loaded with cattle, started down the Raton Mountain, but became unmanageable because the air brakes failed to work. The train gained a frightful speed, and while turning a sharp curve the engine and tender broke away from the train, and sixteen cars went over an embankment twenty feet high, smashing the cars into kindling-mood and killing 360 cattle.

Breakman J. M. Kurns was slightly hurt, and four tramps, stealing their way over the road, are reported buried in the wreck. The four last cars of the train are the only ones that remained on the track. The road is torn up for several hundred feet, and the loss to the company is estimated at \$25,000.

GUTHRIE, O. T., May 1.—The south-bound train on the Santa Fe road was held up last night about 11:30 o'clock by five masked men. The gang is supposed to have been the notorious Dalton boys, who have been seen in this neighborhood recently. They boarded the train at Wharton and detached the engine and express car and then proceeded two miles south and robbed the express car of all the money it contained. It is believed that the amount stolen is not very large. The passengers were not molested.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
Proprietors.

MONDAY, MAY 11, 1891.

Omo made the twenty-fourth State to declare for ballot reform.

The eyes of Kentucky Democrats are centered on Louisville this week.

MAYOR MOSBY, of Cincinnati, has taken a determined stand against violators of the Sunday laws, and he should be upheld by all the good citizens of that city. The rattle of beer wagons and the cry of base ball players should be suppressed on the Lord's day.

THE Michigan Legislature has made a radical change in the manner of choosing Presidential electors. Hereafter they will be elected by Congressional districts, and not from the State at large. This system will divide the electoral vote of the State about evenly between the Republicans and Democrats.

THAT was a pretty shrewd move of State Treasurer Hale in calling on the banks to pay, two months in advance, 50 per cent. of the taxes due from them in July. The treasury was empty, but the banks responded liberally, and over \$50,000 had been paid in at last accounts. Mr. Hale has shown his efficiency in the position he holds, and he will likely be honored with a nomination for re-election this week.

"DEMOCRAT."

He Makes Some Timely Comments on the Mass Meetings a Few Days Ago.

Now that several days have elapsed since the holding of the mass convention, on May 2nd, it is possible to take a dispassionate view of the conduct and action of that assembly. One can gather the facts, present them to a composed, and we trust patient constituency, have them fairly weighed, and elicit an unbiased opinion.

The prevailing sentiment in the ranks to-day, we believe, is one of regret at the uproarious tumult the convention shaped itself into, and all are agreed that the post-vow and split are rather disgraceful to the county Democracy. That such conduct with a prior record of like character is calculated to bring Mason County Democrats into disrepute, is evident. For it is known that this is not the first time when two sets of delegates have gone to State conventions from this county.

The question naturally arises, who is to blame in the present instance? This can be answered by showing whether, or not, those of the party who organized and sent an unrepresented delegation to Louisville were justified in their action.

It is understood by every one that all conventional bodies obligate themselves to conform in their proceedings to well defined and long established parliamentary rules. These rules are founded upon true democratic principles, and embody the sentiment that all members are possessed of equal rights and equal privileges. A majority has no right to suppress a minority only in accord with these rules, and a minority has the right to be heard when acting within their scope.

It is admitted now, even by many who assisted in organizing the late convention in the interest of Mr. Clay, that their proceedings were wholly unbecoming for and in gross violation of parliamentary principles. That the evident purpose of the leaders of the Clay men was to override all opposition, and that they did carry out their pre-arranged programme regardless of the rights of all opposing, was patent to everyone.

Under these circumstances was it wrong for members of the convention who were opposed to such proceedings, whose rights had been wholly ignored, to protest by organizing and selecting a set of delegates to attend the Louisville convention? We will answer this by asking whether it is ever wrong to protest against an unwarranted usurpation of one's rights? Whether it is ever wrong to appeal from injustice done in a lower to a higher tribunal? Whether it is ever wrong to uphold right? Every true and patriotic Democrat will answer, never! He knows that equal rights to all and oppression to none is the watchword of his party. A guarantee of this sacred principle to each of its members can alone maintain the dignity and perpetuity of the party.

Would it not be appropriate here to ask how many Democrats approved of the course of the late Congress? How many are willing to submit to Tom Reed discipline even in a county convention? Not one!

Now, gentlemen, you who participated in manipulating the late convention in the interest of Mr. Clay, think on these suggestions, and if you are true to your own sense of right, true to your party's best interest, and have the welfare of your county and country at heart, you will not condemn the action of those who protested.

DEMOCRAT.

BABY IS SICK—The woeful expression of a Des Moines teamster's countenance showed his deep anxiety was not entirely without cause, when he enquired of a druggist of the same city, what was best to give a baby for a cold? It was not necessary for him to say more, his countenance showed that the pet of the family if not the idol of his life, was in distress. "We give our baby Chamberlain's Cough Remedy," was the druggist's answer. "I don't like to give the baby such strong medicine," said the teamster. "You know John Oleson, of the Watters-Talbot Printing Co., don't you?" inquired the druggist. "His baby, when eighteen months old, got hold of a bottle of Chamberlain's Cough Remedy and drank the whole of it. Of course it made the baby vomit very freely, but did not injure it in the least, and what is more, it cured the baby's cold. The teamster readily knew the value of the Remedy, having used it himself, and was now satisfied that there was no danger in giving it to a baby. For sale by Power & Reynolds.

OUR NEIGHBORS.

WASHINGTON.

Mrs. Rev. Maurice Waller, of Lebanon, is visiting her father, Colonel Chas. A. Marshall.

If it does not break a man's heart for an only son to die a drunkard, then he has no heart.

Mr. Charles Marshall and wife, of Fleming County, are the guests of his sister, Miss Mary W. Marshall.

Rev. Martha Luther, who has been conducting a very interesting and profitable meeting here for more than a fortnight, has returned home.

We saw two lads, none too large to be spanked, on their way from the circus, drunk. These young hopefuls will doubtless soon be making it pleasant (?) for their parents.

O, the misery of a father, whose life and hopes are bound up in a son, to have that son go the way of a drunkard! Lead and wormwood are as honey in comparison with such a case.

Who will say that the whisky seller is not responsible whenever a drunken husband murders his wife, which is so frequently the case? He and not the half crazed brute, should be held accountable therefor.

Some ostensibly christian people will not do anything against the terrible crime of drunkard-making and kindred evils, for fear a town or city might lose the revenues derived therefrom.

The Government is just about as reckless and profligate in its expenditures as Coal Oil Johnny

used to be when he became so suddenly rich. Those who knew of this young man will readily comprehend the comparison.

Some men will tell you they are opposed to liquor selling, and are in favor of religion, morality, etc., but their actions give the lie to any such declarations; for they never do anything against the former nor in aid of the latter.

While a man is a candidate for some petty office he will go a mile out of his way to shake your hand, but after he is elected he will go twice as far to keep from speaking to you, as he esteems himself such an important personage.

Some people who claim to be Christians, will not so much as lift their hands against the stench of rum selling, as we find it in saloons, but they will lift these same hands to their mouths with a drink of the accursed stuff in these same saloons.

Of all the contemptible characters in the world, the very most so is the man or woman who, on account of a little rise in their own fortunes or a decline in yours, pass you without any recognition; although you may be of far better family and character than they. Such persons are utterly despicable to all those of any sense or decency.

THE New York World says: "Miss Mary Breckinridge, daughter of Congressman Breckinridge of Kentucky, is not satisfied with being a social belle at the Capital, but has begun the study of law in her father's office. Miss Breckinridge is pretty and popular, and it goes without saying that she is a sensible girl and will make a good lawyer."

SAYS the Louisville Post: "Gen. Castleman, Chairman of the State Central Committee, has had 1,200 badges printed for the convention, 918 of which are for delegates. The surplus will be distributed among the candidates and the Executive Committeemen. It is very probable that separate badges will be issued to the members of the press. There is a big demand for admission to the floor of the convention, but it is found necessary to the transaction of business to reserve the space for delegates."

AT Ashland Saturday, J. T. Stephenson and three brothers named Cumbo were engaged in tearing down the old Southern Methodist Church when the ceiling on which they were standing fell with a crash, burying the four men beneath the debris. Mr. Stephenson died in a few minutes after being removed. The other three men were alive at last accounts but with small chances of recovery. The old church building has been standing for more than thirty years, and the roof was constructed after the truss bridge fashion. A new church building is to be erected on the site.

CITY STATISTICS.

Summary of The Report of Assessor A. N. Huff for The Year 1891.

Mr. A. N. Huff, City Assessor, has completed the work of listing the property for taxation, and below are given some interesting figures gleaned from his report:

The number of school children are reported as follows: Whites 940; colored 230; total 1,170.

The population is reported by Mr. Huff at 5,812—4,940 whites and 872 colored.

Cornet Duetists and Soloists.

Maysville people will likely have an opportunity of hearing Professor Knoll, the cornetist, at an early day. The matter has not been definitely settled yet, but some of his friends are trying to arrange for the appearance of himself and Marie McNeil in a concert at the First Baptist Church. The Professor and Miss McNeil are said to be the two greatest cornet duetists and soloists in the country. If the concert is given, the admission will be only 35 cents, and the church will no doubt be crowded.

If you wish to hear these cornetists please call on L. G. Strode and let him know the number of tickets you will take.

Mulligan, the Burglar.

Captain Heflin returned Saturday evening from West Union, where he took the burglar, W. A. Mulligan, Friday. A special grand jury was empaneled Saturday morning and two indictments were found against Mulligan.

Captain Heflin has recovered several watches sold in this city by the accused, which were identified as the property of Davis & Co., of Peebles, near West Union. Their store was robbed several weeks ago. Mr. Heflin believes Mulligan is one of the thieves who broke into Walton's store at Germantown about two weeks since.

THAT'S WHAT YOU DO and that's what you don't do when you buy a pair of our \$3.00 Shoes.

It isn't an easy matter to put your feet into some shoes and, when that happens to be the case, it's a great relief to take them out again.

When you once mar the natural outlines of a foot, its shapeliness is gone forever, to say nothing of the tortures you inflict upon it.

You will have nothing to be sorry for if you try a pair of MINER'S \$3.00 SHOES. IT'S OUR SPECIALTY.

In material and workmanship, they are easily ahead of any other make and for style, fit and comfort, they are "out of sight" when compared with others.

Being made by the Goodyear Welt process, they are as flexible as hand sewed, and the annoying nails, wax and threads usually found in shoes, are conspicuous by their absence in these.

All the little details that go to make up a perfect shoe will be found in MINER'S \$3.00 SHOES. Try them.

Thousands of People Turn Out and Listen to Socialistic Speeches—Defense of Jewish Persecution—The Latest Russian Ukase—Other Cable Dispatches.

LONDON, May 10.—Thirty-eight suffrage meetings were held yesterday in Brussels and other cities in Belgium, and the attendance numbered of thousands. Many of the speeches made were of the most violent character, the speakers urging that the working people must assert their right to a share in the government. The upper classes were warned that their oligarchy was approaching a close and nothing short of universal suffrage properly granted would be likely to avert a revolution.

A socialist orator in Brussels asserted that the day was not far distant when royalty would be brought down as it had been brought down by the French revolution, and that the bayonets employed to prop up thrones would be turned upon those who sat upon the thrones. The utterances were enthusiastically applauded.

At Ghent, where the suffrage agitation has heretofore been comparatively undemonstrative, the people assembled in thousands, and in such a threatening manner as to call for the interference of military and police, to prevent rioting.

In Antwerp, Ghent, Liege and Charleroi, as well as Brussels, the garrisons were kept ready for instant service and the police were reinforced by gendarmes. The miners on a strike assembled as on May Day, but without any serious exhibition of violence. The utmost anxiety is felt by the authorities as to the future, and it is said that both king and cabinet favor ample concessions on the suffrage issue as a means of placating the workmen. The majority of parliament is, however, still stubbornly opposed to the surrender of the powers and privileges which the upper orders in Belgium have so long possessed exclusively, and the farthest they are willing to go is to place the suffrage within reach of the lesser taxpayers, still excluding the vast majority of the workmen. In England and Germany the situation is viewed with equal anxiety, as it is felt that the agitation is favorable to France and that the Socialist element would rise en masse in the event of a war.

Social Reform in Russia.

ST. PETERSBURG, May 11.—The czar has issued a ukase effecting a most important social reform. Hereafter all illegitimate children of Christians are to become legitimate upon the marriage of their parents, on condition of proper announcement made by the latter to the judicial authorities. Even in cases where a marriage is annulled or declared to have been illegal, the children are to have all the rights of legitimate offspring. The decree affects a vast multitude of children in Russia, where illegitimacy has been extremely common. The imperial family is, of course, exempted from it.

Abundant Stories.

LONDON, May 11.—A St. Petersburg letter says that officials are making the most absurd excuses everywhere for the persecution of the Jews. One of the reports, started at Kieff, says that there had been a mysterious disappearance of several Russian children, and that the children were kidnapped by Jews for purposes of sacrifice. It was even alleged that the calcined bones of a victim had been found. The stories were readily believed by the more ignorant, and had much to do with the cruel treatment of emigrant Jews by the populace.

Virchow Opposes the Koch Lymph.

BERLIN, May 11.—The lower house of the Prussian diet has voted 165,000 marks for the establishment of the Koch institute. Professor Virchow opposed the grant. He strongly denounced the treatment of consumptives with Koch's lymph. He declared that it had proved a failure as a curative. He warned the doctors that they ran great risks in persisting to treat patients with Dr. Koch's lymph.

Steamer Damaged in a Collision.

PORT SAID, Egypt, May 11.—The British warship Tamar has been slightly damaged in a collision with the British steamer Harrow, Capt. Brooker, from Japan and China for Suez and New York. The Harrow was badly damaged, her plates being bent, and she must repair before proceeding on her voyage.

BELGRADE, May 11.—Queen Natalie has replied to the premier that despite his threat of ejection from Serbia she would persist in her refusal to leave the country.

THE NEW ORLEANS LYNCHING.

Mr. Corte, the Italian Consul, Makes Serious Charges to the Grand Jury.

NEW ORLEANS, May 11.—Mr. Corte, the Italian consul in this city, on the 7th inst., addressed a communication to W. H. Chaffee, foreman of the grand jury, charging, among other things, "that an extra judicial body appointed by the mayor, from the beginning premeditated the killing of the prisoners," etc. This statement has greatly offended the mayor, as the body referred to is none other than the famous committee of fifty, appointed immediately after the killing of Chief Hennessy to investigate into and bring the guilty parties to justice.

The same committee are now at work which will give in detail their connection with the investigation, the work done by them and the causes of their appointment. The report will be submitted to the mayor and council at their meeting on Tuesday evening next. On the basis of this report the mayor will take the necessary action leading to the recall of the Italian consul.

Mr. Corte reiterates his charges and says that nothing now remains but for the municipal authorities seek his recall. It is understood that the grand jury are at present engaged in preparing a reply to Mr. Corte's communication.

RUN DOWN AT A CROSSING.

A Newport News and Mississippi Valley Train Crushes a Wagon Load of People.

PADUCAH, Ky., May 11.—Saturday evening at 6 o'clock, passenger train No. 5 on the Newport News and Mississippi Valley railroad had just pulled out of Mayfield into a deep cut across which ran a road. Just as the train, running at full speed, was about to cross the road, a wagon loaded with people came upon the track, and in the twinkling of an eye the wagon was demolished and the people scattered on both sides of the railroad.

One 12-year old boy by the name of Robert Stewart was killed outright, being run over by the train.

Lucian Stewart had both his legs cut off and is dying.

Mrs. Perry Stewart had both her arms broken.

Mrs. Zelia Wyatt received internal injuries.

The other member of the party, Miss Anna Stewart, escaped unhurt.

The persons in the wagon lived in the country, and were on their way home from a shopping trip to Mayfield.

FOUR DEATHS MAY RESULT.

One Man Killed and Several Injured by the Fall of a Ceiling.

FRONTON, O., May 11.—A sad accident occurred at Ashland, Ky., at 9 a. m. Saturday. While tearing down the old South church the ceiling fell, killing Mr. Stephens, an old man. Several others were badly hurt, and three of them, it is feared, fatally.

Aged Lady Seriously Burned.

DANVILLE, Ky., May 11.—Mrs. Fannie Rains, aged 76, a well known lady of this county, had a narrow escape from being burned to death, and perhaps received fatal injury, late Friday evening at the home of her son-in-law, T. D. Chestnut. She was sitting in front of an old-fashioned fireplace and fell asleep, and while dozing fell headlong into the fire. She was just recovering from a severe illness, and had a small shawl around her head. This ignited, and as the lady was so badly frightened that she could not help herself, she was terribly burned about the face, head and shoulders. She is very low, and owing to her extreme age, is not expected to recover. She is a sister of the well known stockman, W. J. Tarkington.

A Small Boy Tells a Very Fishy Story.

CANTON, O., May 11.—A portion of jewelry stolen Friday from the house of Mrs. Pellon, belonging to her son-in-law, J. A. Kirk, was Saturday recovered. Arthur Pellon, a young boy, brought the jewelry back, saying a man had stopped him on the street and conducted him to where the jewelry was hidden in a rail pile near North Industry. The police regarded this as somewhat doubtful and he was placed under arrest on suspicion. He denies all knowledge of the affair, asserts his story is true and says he thinks Kirk took the jewelry away with the intention of leaving his wife.

Murder and Suicide.

LOGANSPORT, Ind., May 11.—Martin Griner shot and killed Mrs. Amma Keister Saturday afternoon at her home on Canal street, and then placed the end of the revolver in his mouth and sent a bullet through the top of his head. He is still alive, but cannot recover. Friday night Griner took chloroform with suicidal intent, but was saved by the doctors. Griner has been living with the murdered woman for some time, though he is married and has a wife and family.

Selfed After Living 110 Years.

HAZELTON, Pa., May 11.—Mrs. Connolly, aged 110, committed suicide Saturday by setting fire to her bed. She had of late been very infirm, and the neighbors, who have kept her for the past twenty years, decided to send her to the almshouse, where she would receive good care. She suspected that, and rather than suffer what she considered an indignity, burned herself to death.

Five Round Fight.

PUEBLO, Col., May 11.—About 2:30 o'clock yesterday afternoon a special train left the Union depot for Fowley, a small station about thirty-eight miles from Pueblo, which had been selected as the battle-ground for the contest between Robert Dobbs, colored, and Reddy Brennan, the "Streator Wonder." The wonder was not in it from the start, as 1 Dobbs put him to sleep in the first round. About 300 people witnessed the contest.

Engineers Pulled from His Cab.

CHATTANOOGA, May 11.—Clinton Russell, an engineer on the Sherman Heights division of the Belt railroad, while passing through a cut, stuck out his head and was struck by a projecting rock and knocked out of the cab. He fell under the wheels and will lose both hands, and may have received internal injuries.

Corte to Be Recalled.

CHICAGO, May 11.—A special dispatch from Washington intimates that the department of state is likely to demand that Italy recall Pascal Corte, the Italian consul at New Orleans, for violating diplomatic courtesy and generally making himself a persona non grata by his utterances in connection with the Mafia affair.
